Burial of President McKinley.
A detailed account of the death of President McKinley will be found on our fourth page. This account is complete up to Tuesday night, at which time the remains were taken to Canton, Ohio, his old home. The funeral will be held this afternoon at 2 o'clock, at which time meetings will be held in ever town in the United States.

District Convention.
Mrs. Harrison, State President of the C. W. B. M., will address the Convention that meets in Lancaster next week. The public is cordially invited to hear her, and to attend the District Convention which will be held at the Christian church. The Christian churches in the county are invited. All visitors will be entertained at dinner.

Republicans Complete Ticket.
The republicans met last week and completed their ticket to be voted for in November. They selected W. McC. Johnston for attorney, Mrs. Fannie Koehler for superintendent of schools and Wright Kelly for representative.

Capt. W. H. Collier, who was nominated for the legislature, declined to make the race. This completes all the tickets now, and you can pick your choice for officers.

The Yantis Sale.
Auctioneer Am. Bourne reports the following prices at the Thos. Yantis sale: Milch cows and calves \$15 to \$25; yearling cattle, \$10 to \$20; horses, \$25 to \$50; hogs, \$5.50 per cwt.; corn, \$2.10 to \$2.25 at the heap; some hay brought 57¢ delivered in Lancaster; farming implements brought good prices. The Jas. H. Yantis farm brought \$24.25 per acre and was bought by Mrs. Nannie Jennings.

Believes in Printer's Ink.
Mr. W. McC. Johnston, whose card appears in this issue of THE RECORD, is a believer in the use of printer's ink as his lengthy announcement goes to show. He is the only one on either side who has put a card in the paper. If the candidates would stop and think about it, they would see that the way to get the attention of the people is by stating their case in a newspaper, which is read by the fireside at home. Our rates are reasonable, and if you want to set forth your good qualities, THE RECORD is ready to serve you, at ten cents per line.

Thinks They Should Have It.
The Danville Advocate still thinks it thinks the Burgin-Jellico road can be brought through its town instead of Lancaster. Hear Brer Woolfolk: "A statement purporting to be authoritatively given out from the headquarters of the road says that the Louisville Southern, in view of the deadlock which threatens to prevent the lease of the C. N. O. & T. P., will extend its line to Chattanooga. In the event of the construction of such a line, it is a consummation devoutly to be wished that the characteristic enterprise of Danville's business people should assert itself with sufficient magnetism to draw the iron rails in the direction of Little Britain. Otherwise we will be stockaded with railway tracks, and 'Louisville three hundred miles away.'"

Russell.
It was a great shock to his many Garrard county friends to learn of the death of Warren Russell, which occurred at his home in Marlon county last week. He had been ill for some time before his death was considered as much improved, but a turn for the worse resulted fatally. Mr. Russell formerly resided in this county and was a stepson of Mr. W. B. Jarvis. He was married and leaves a widow and two children to mourn his loss. He was an unusually bright young man, and made friends of all with whom he had dealings. He was a hard working, honest and honorable boy, and his death is to be deplored. He had recently been attending a medical college in Louisville. The family have much sympathy from their Garrard county friends.

PROCLAMATION BY THE MAYOR.

In accordance with the proclamation issued by the President of the United States, the citizens of our little city are requested to close their places of business today, (Thursday, Sept. 19th,) from 2 to 4 o'clock p. m., and assemble in the court house to hold proper memorial services over the death of the beloved William McKinley, whose remains will be laid to rest at Canton, Ohio, at that hour. All citizens of the town and county should attend this meeting.
R. Kinnard, Mayor.

Pronounced "Cholosh."
The name of President McKinley's assailant, Czolgosz, is rendered in English as "Cholosh," the "g" in the Polish language taking the sound of "h."

Fervent Prayers.
The ministers of the town offered fervent prayers for the president at the regular prayer meetings last week and Sunday morning they all spoke of the distressing affair in their sermons. The people of the town and county are unanimous in denouncing the assassination, and all, irrespective of party, speak in the highest terms of the dead president.

A Big Crowd.
Last Sunday, the local depot agent sold ninety-six tickets for the excursion to Cincinnati. Engineer Henry Lammer's engine was used to pull the heavy train. A big crowd from lower points was on board and the train was crowded to the guards when it pulled out of Lancaster. More coaches were added at Richmond and all were comfortably seated. These excursions have been very popular this summer. Only a few more will be run this season.

A Serious Charge.
Saturday night, a party of colored men, who had been cutting hemp in the upper end of the county, came to town and engaged a wagon from Liveryman Arnold to take them to their homes in Daviess. The party had reached the farm of Mr. Curt Robinson when they met four white men coming this way in a buggy. Without any warning, the whites fired into the wagon, one ball striking a colored man in the knee inflicting a dangerous and painful wound. Mr. Robinson, hearing the shots, telephoned to Policeman Slier, the latter leaped upon a horse and struck out the Lexington pike. Near town he met the buggy containing Harry Campbell, C. Baker, J. Hutchison and Lewis Cheatam. They were arrested and the officer took from them several pistols and a lot of whisky. They were lodged in jail. They deny shooting in the wagon. Several empty shells were in the pistols and a number on the floor of the buggy.

On to Louisville.
The Lancaster Commercial Club has accepted the invitation of the Louisville Inter-State Fair people, and will go in a body to that city on next Thursday, the 26th. A special train has been chartered and will start from the Lancaster depot about six or seven o'clock that morning. The fare has been made low, and all can afford to take the trip. The special train will return that night. It is very important that as many as possible go to Louisville, and show the people of the Falls City that their efforts to make it the leading city of the South are appreciated, and that we propose to lend them all the aid in our power. Up to the present time, the following have signified their intention to go: W. H. Kinnard, J. E. Stormes, Lewis Y. Leavelle, B. F. Hudson, I. C. Rucker, W. B. Mason, H. A. B. Marksburg, Louis Landram, John M. Duncan, H. T. Logan, R. E. McRoberts, R. Kinnard, John M. Farra, S. C. Denny, Dr. J. B. Kinnard, J. B. Kinnard, J. A. Burns, J. A. Doty, T. A. Elkin, John M. Logan, J. R. Haselden, J. C. Thompson, J. A. Beazley, I. S. Wesley, J. C. Hughes, Banks Hudson, G. B. Swinebrod, W. J. Romans, Geo. W. Palmer, William Herndon, David Walker, J. S. Robinson, T. Curry, Jr., Todd Scott, George M. Patterson, William Burnett, B. G. Ward, B. H. Tomlinson, J. B. Conn, R. A. Stone, E. C. Gaines, R. M. West, J. C. Robinson.

The delegation will be met at the train in Louisville, escorted to the Board of Trade Building, where addresses of welcome will be made. The party will then be taken to the Fair grounds, where dinner will be served and the visitors will enjoy the attractions on the Midway and the exhibitions at the Fair. This will be a delightful trip for the farmers and stock-raisers of the county, and none should miss the opportunity of taking it in. Give your name to John Farra, or leave it at THE RECORD office at once, as it is important to know the exact number that will go.

ANNOUNCEMENT.

TO THE CITIZENS OF GARRARD COUNTY:
At the practically unanimous demand of my own party and urgent solicitation of other friends, I have at last consented to become a candidate for the office of County Attorney on the Republican ticket.

I had not expected to again ask for the suffrage of my fellow-citizens, but in view of the great number of electors, regardless of their party affiliation, who have seen proper to insist on my nomination, I have, with some reluctance, consented to accede to their request.

In thus again asking the citizens of my county for their support for this, one of the most important offices in the gift of the people, I am not unmindful of the fact that it is an office fraught with the gravest responsibilities and duties, it having not only an important influence on the maintenance of peace and good order throughout the county, but is also perhaps, the most important factor in shaping and controlling the amount of taxes that your Fiscal Court finds it necessary to levy on your property each year to meet the current expenses of your county affairs.

And in this connection, I hope I may be pardoned for referring with some pride to my former administration of this important duty during the term I had the honor to occupy the office, and when, after my repeated assaults on all useless extravagance, and on certain most time honored leaks in your county treasury, the levy necessary to meet all the current expenses of your county, and then leave a handsome surplus in your treasury at the close of the year, was less than one-third, barely more than one-fourth, of the amount of each and every successive levy for county purposes made since my retirement from that position.

And since the late decision of the Court of Appeals that the Court of the city of Lancaster no longer has jurisdiction to try whisky cases, and with blind tigers not only flourishing throughout the county but, with their Government Licenses all over the corporate limits of Lancaster, actually boasting of their dispensing to your sons, each and every week, three barrels of whisky and over two thousand bottles of beer, with the county attorney being hereafter practically the only safeguard to prevent their extending their sphere, and running even wider open than now,—this office is of even greater importance than ever before to such of our parents as wish to protect their boys from this most vicious and destructive influence, and it well behooves them to make no mistake in selecting and deciding who shall hereafter see whether this condition of things shall continue to exist.

With a high conception of the duties of this office, with a higher conception of my obligation to my own and my neighbor's sons, having steadfastly during the twenty-two years of my law practice refused to defend the keeper of a blind tiger, nor in the thirty-nine years of my existence taken a drink of whisky, if honored again by your election to this high trust, I pledge you, that whatever of experience, ability or talent I may possess, shall be exerted to so administer its important duties as to not only encourage and promote peace and good order and a strict obedience to the law throughout the county, but also to prevent any and all illegitimate, improper and unnecessary drains and expenses on your county treasury.

Fearing that pressing business engagements, and the limited time left for my canvass may prevent my seeing each of you personally, I take this method of announcing my candidacy and assuring you that if my candidacy meets with your approval, I shall be very grateful for whatever assistance you may render toward promoting my election.

Respectfully,
W. McC. JOHNSTON.

CENTRAL RECORD.

— An Independent, Local Newspaper. —
— ISSUED WEEKLY. —

LOUIS LANDRAM, Editor and Publisher.

Lancaster, Ky. Sept. 19th, 1901.

THE question, "How long will the American people permit their country to continue to be a place of refuge for Anarchists, and other scums of the earth?" has been asked many a time during the past two weeks. The answer is easy. The red-handed devils will hold full sway here as long as the people elect numbskulls to make laws, men who care nothing whatever for the country's good, and only look for their own personal welfare. When the people select honest, business men as law makers, and fill their legislative halls with men who love their country better than they do office-holding, then we may expect laws enacted that will put up the bars and keep out the foreign trash. The trouble is the law makers are always toadying for votes, and will make no move that will probably injure the feelings of some foreign class of voters. To haves with this way of doing. America is for Americans, and if we cannot protect our chosen rulers from harm, we had best take down the sign and shut up shop.

One thing that doubtless furnishes inspiration to the Anarchists is the publication by some newspapers of villainous attacks on the rulers of the country. This is a thing that is looked upon as all right, but on serious thought, it is a mistake, and a grave mistake. It may be well enough for political papers to belittle a candidate, but after an officer is elected, it ought to be made a criminal offense to belittle or malign him. The cartoonist has done a great deal to bring public officers into ridicule, and this, together with the attacks by partisan writers does not speak well of a great and progressive nation. If a law were put in force prohibiting these villainous criticisms, it would spike the guns of the small fry, two-for-a-penny public speakers and take away all the ammunition of some popinjay papers, but these could be done without just as well.

ONE of the brainiest men in Kentucky is Col. W. G. Welsh, of Stanford, but this is no startling announcement to THE RECORD readers, who know the fact as well as we do. The other day, a party of gentlemen were discussing the assassination of the President, and the pronunciation of Czolgosz' name came up. All took a turn at pronouncing it, some one asked the colonel what he thought of it. "Well," replied he, "I am not positive on the point, but I will say this, that whenever a man comes to this country with a name that no American can pronounce, that fact alone ought to justify his being killed on the spot. Such damnable bounds always cause trouble."

THE Louisville Times is the "Hustle-stein" hustler of 'em all. Nothing of importance happens that the Times is not on the streets in a very few minutes thereafter telling all about it. The Times is under the best management in the South, and has the best equipment money can buy. During the president's lingering, at all hours of the day the newboys could be heard crying "Here's the Times! Extra! Extra! Pa-p-u-r-r!" Col. R. W. Brown is entitled to great praise for having put the Times on the high footing it enjoys.

ALL of the "figurelists" who make estimates upon the strength of the navies of the world put Uncle Sam down about fourth. They make their calculations from the point of equipment and make no allowances for the men behind the guns. In this latter point, your Uncle Samuel stands far ahead of any of the boys, and this is the most important point of all. Our jacksies can blow any foreign sailors off the map while the latter are trying to load a gun.

THE case of Czolgosz is the first we remember of knowing where some little jack-legged lawyer didn't jump in at once to defend him. It seems even the small-fry of the profession desire to take no hand to help the culprit and in that way get before the public.

SOMEbody estimates that criminals cost the people of this country about \$1,000,000,000 a year. If twenty-five dollars worth of rope was bought and used in hanging ninety-five per cent of the red-handed devils, this great expense would be checked.

OUR legislators put the bars up against poor John Chinaman, and said he must seek other climes, but nothing has ever been said against the Anarchists who hold open sessions and make no effort to conceal their devilish intentions.

WE will wager a new hat that Roosevelt velt the riot act to a number of politicians before he has been in the presidential chair six weeks. Teddy is bull-headed, so they say, and will not be dictated to. Here's hoping.

ED WALTON printed half a column in his Friday's paper under the head, "What to Eat and Drink in Hot Weather." It's not a case of "what" to eat, Ed, the point is "how to get it."

THE true Christian was shown when

Mr. McKinley said, in his last breath, "Thy will, Oh Lord, and not mine, be done."

A POEM in a leading paper is headed "Roll On Niagara." Doubtless Niagara is thankful for this kind permission from the would-be poet, and will continue business as the old stand.

Does It Pay to Buy Cheap.

A cheap remedy for coughs and colds is all right, but you want something that will relieve and cure the more severe and dangerous results of throat and lung troubles. What shall you do? Go to a warmer and more regular climate? Yes, if possible; if not possible for you, then in either case take the only remedy that has been introduced in all civilized countries with success in severe throat and lung troubles, "Boschee's German Syrup." It not only heals and stimulates the tissues to destroy the germ disease, but allays inflammation, causes easy expectoration, gives a good night's rest, and cures the patient. Try one bottle. Recommended many years by all druggists in the world. Get Green's Prize Almanac at Stornes Drug store.

At John Bolton's sale last week, corn brought \$1.80 per bbl, in the field.

Mr. Portwood and Mr. Dozier, of Valley View, visited the formers son-in-law, Geo. W. Rogers, last week. Cleveland Spangler visited W. H. Furr last Sunday. Mr. Robert Davidson and Mr. House visited W. H. Furr last week.

ITS TIME TO ACT.

So Long as the People Tolerate It, Assassination will Continue.

Harry Giovannoli, in a letter from Washington to the Danville Advocate says:

"The act of the fiend Czolgosz (pronounced Shollgus) may set the people of the United States to thinking, and the verdict may be that there is too much liberty in America."

The personality of the man who fired the shot is of small moment. Whether he is hung or whether he gets ten years in the penitentiary count for very little when weighed in the balances with the deeper meaning of his act.

The real issue is, how long will the people of this country suffer the growth of the anarchist spirit, typified by this man Czolgosz, who brazenly confesses that he was led to do the deed by the writings and speeches of socialists and anarchists?

And it is not alone amid surroundings of squalor and ignorance that this blood-seeking sentiment receives its highest encouragement. That is the shame of it. In New York and in other leading cities widely-circulated newspapers of alleged respectability have for months emitted the black vomit of anarchy and ruin. They have held the "resident up as the vile tool of scheming capitalists, ready to do their bidding to the utmost, and have sought to convince the unfortunate and the unsuccessful, the poor, the ignorant and the vicious that the President and his advisers, and not their personal misfortunes or incompetency, were the direct cause of their distress."

Further than this, one of these papers, in a lengthy editorial a short time ago, actually justified assassination and said that the assassination of Lincoln was a good thing, and this from a paper which claims to be in the forefront of modern American journalism.

With such incendiary stuff as this from such high places poured daily into the heads of driving idiots like Czolgosz, murder and assassination must follow as surely as the night the day. The pity is that an indifferent public basks in the sunshine of a fool's paradise and suffers the criminal custom to continue, supports it, applauds it, pours dollars into it, until the murder it breeds has done its deadly work."

When men of force and men of cunning and adroitness preach such doctrines as these to the ignorant and the vicious, and the fruit of the sowing is murder and arson, what remedy is there but extermination?

If not, why quarantine against yellow fever or shoot a mad dog?

Styles for the Winter.

The easiest and simplest way we can suggest for our readers to get a good idea of the styles that will be popular this winter is to buy a copy of the October Delineator, just on sale at every news stand. The Delineator for October forshadows, by means of its New York, Paris and London connections, those tendencies of fashion which will certainly prevail.

In addition to the fashion features and practical dressmaking advice that has made The Delineator famous, the October number is full of good general reading, most tastefully illustrated under the immediate direction of the well-known artist, William Martin Johnson. Mr. Johnson's work is known to lovers of the beautiful, by reason of the Garfield edition of Ben Hur, as well as some other books of large sale. Mr. Johnson believes in illustrations that illustrate, rather than in pictures that only ornament a page. The whole October number of the Delineator is full of interest to men as well as to women.

Teachers' Association.

The Bryantsville teachers' association convened at Pleasant Grove church Saturday, September 14. Although the day was very inclement, a good crowd was present. Besides the members of the district and our genial Superintendent, there were not a few visitors from neighboring districts and counties.

The welcome address was delivered in a very pleasing manner by Miss Mittie Dunn. The following very creditable papers were read by members of the association: Little Things, Discoveries, Miss Mary Tomlinson: Men in the Public Eye, Miss Edna Scott; The Relation of Teacher and Parents, Miss Mary Dunn; Prof. W. C. Grinstead, the wide-awake principal of the Danville public school, read a strong paper on Tactics of the Teacher. As usual he set forth in a forcible manner ideas of no small value to the teacher, the salient points of the paper were discussed by Rev. Cones, of Tennessee. The educational value of the meeting was greatly added to by the scholarly address of Prof. Pinkerton, of Stanford Female College, on "The Personality of the Teacher."

Stress was placed on the social status of the teacher, esteeming more highly "who the teacher is" than her mental attainment.

One of the most pleasurable features of the programme was the vocal music furnished by Misses Marksburg, Moore, Ison, Lusk, Dunn and Mr. Marksburg, Miss Jennie Swope being organist. The small children of Miss Anderson's school rendered a temperance song.

Misses Maude Pope and Mae Robinson favored us with readings which were much applauded.

Thanks are due Miss Anderson for her energy in conducting the meeting and to teachers and friends who so kindly contributed the abundant lunch.

A committee was appointed to draft a resolution deploring the loss of our esteemed President McKinley, and the following resolution was submitted and unanimously adopted:

Resolved by the Teachers of Garard County Association,—That we deeply deplore the villainous murder of our beloved President, and that we as a body assembled, do promise that we will endeavor to so instruct the youth of our land in order that they will stamp out the vile anarchy which is prevalent in our great republic. That in his death we sustain a great loss, both as a nation and as individuals, and we extend to his wife our tender sympathy, and trust that an All-wise Providence will sustain us as a nation in this hour of our bereavement.

B. W. Pursell, Kintersville, Pa., says he suffered 25 years with piles and could obtain no relief until DeWitt's Witch Hazel Salve effected a permanent cure. Counterfeits are worthless. F. P. Frisbie.

Many think they are called to fill offices, but few are chosen.

A never failing cure for cuts, burns, scalds, ulcers wounds and sores is DeWitt's Witch Hazel Salve. A most soothing and healing remedy for all skin affections. Accept only the genuine. F. P. Frisbie.

The wife of a photographer doesn't always look pleasant.

It's funny that a woman can't lace shape into fatness, yet she can lace fatness into shape.

Henry Braydon, Harris, N. C., says: "I took medicine 20 years for asthma but one bottle of One Minute Cough Cure did me more good than anything else during that time. Best Cough Cure did me more good than anything else during that time. Best Cough Cure." F. P. Frisbie.

Whenever a widow begins to make inquiries as to a bachelor's financial condition she means business.

Sig Darling, 1012 Howard st., Port Huron, Mich., writes: "I have tried many pills and laxatives but DeWitt's Little Early Risers are far the best pills I have ever used." They never gripe. F. P. Frisbie.

What a woman calls temper in her sisters she calls sparkling vivacity in herself.

Norris Silver, North Stratford, N. H.: "I purchased a bottle of One Minute Cough Cure when suffering with a cough doctors told me was incurable. One bottle relieved me, the second and third almost cured. To-day I am a well man. F. P. Frisbie.

It's no use to kiss a girl if you don't tell her you are going to do it.

Cuts and Bruises Quickly Healed.—Chamberlain's Pain Balm applied to a cut, bruise, burn, scald or like injury will instantly allay the pain and will heal the parts in less time than any other treatment. Unless the injury is very severe it will not leave a scar. Pain Balm also cures rheumatism, sprains, swellings and lameness. For sale by R. E. McRoberts, druggist.

It is said that raw tomatoes, liberally sprinkled with salt and eaten, will quench a man's thirst for liquor. But there are some men who do not like raw tomatoes.

Thanksgiving turkeys will be high this season, owing to the shortness of the crop. The shrinkage is due to the cold, backward spring at hatching time.

Bradstreet says that on the face of the late returns on the corn crop outlook 1,400,000,000 bushels is indicated. This is a decrease of 630,000,000 bushels from a year ago.

The Elizabethtown News says that 3,170 cattle, costing \$100,000, will be fattened in that county this season. It will require about \$30,000 worth of feed. If they are made into 1,200 pound steers and sell for 5c a pound, they will bring \$150,000.

The cucumber crop over almost the entire country is a total failure, and dealers say pickles will disappear from the market by Christmas. There will be no pumpkin pies because there will be no pumpkins. Georgetown court day, auctioneer Ben B. Peak reports 150 cattle on the market. Good cattle of 850 pounds weight sold at \$3.35 to \$3.75 per cwt.; heifers at \$2.75 to \$3; calves, \$1.6 to \$1.8 per head; hogs, \$3 to \$5. Forty-one sheep sold at \$2.50 per head.—Paris Democrat.

Danville Advocate.—D. N. Prewitt bought yesterday of different parties 100 head of fat hogs for October delivery at \$3.50 per hundred. He also bought 70 head of lambs at 2c; a lot of butcher cattle at 2 1/2 to 3c, and a cow and calf of Jeff Sallee for \$25.

A Lexington dispatch says: Negotiations are pending between a local real estate man and W. C. Whitney for the purchase of 2,500 acres of land situated on the Richmond pike, about six miles from Lexington, at \$80. The property embraces eight farms on which options have been obtained.

Some men are so particular and become angry at the slightest provocation. An Illinois farmer became so angry with a farm hand that he gave him a beating simply because the poor man who was driving the binder dropped a lighted cigarette, which burned eighty acres of wheat, the binder and cremated the horses. People should be careful how they become exasperated this hot weather, it might produce sunstroke.

An exchange asks: "How would you like to be your own horse? Would you work yourself six or seven hours without water when the temperature is in the nineties? Would you let the head of a rivet stand twisted in the harness till it tore the skin off? Would you put a bridle on yourself that had a loose blinder which flapped you in the eye every time you made a step? Would you tie yourself up with a lazy or slower horse which made you pull more than half the load? Would you give yourself water out of a slimy box or a mud hole in the creek where the pigs and poultry bathe? Would you feed yourself dry corn seven days in the week, and hay that smelled of rats, in a manger on which the hens roost? Would you stand yourself, ankle-deep in your own excrement, to fight a million flies bred in your own filth?" What would you do if you were your own horse?

The importation of more pure bred sheep this year than in several past years shows the confidence in the future of the sheep industry.

It is announced that Crescens and The Abbott are to trot at Readville, Mass., on September 19th for a purse of \$20,000.

At Indianapolis last week fat porkers sold at \$7, and at Kansas City at \$6.65. This is the biggest price asked since 1893, when fat hogs were quoted at Indianapolis at \$7.10.

With potatoes selling at \$1.50 a bushel it is interesting to know that they were first cultivated between San Riego, Chile and Lima, Peru. They still grow wild in the mountain districts of South America.

Produce commission men in the cities are sending letters to country merchants asking them to urge farmers to dry fruit this year, as it will bring good prices. They cite the falling off in the apple crop in the eastern States and Canada, in addition to the drouth throughout the country, as a reason why dried fruit of all kinds will bring good prices.

In the large slaughter houses in Chicago and elsewhere cattle are killed, skinned, cut up and hung in the cooling room in 39 minutes, and are handled by 20 men during that time. Hogs are killed at the rate of 550 an hour. They are handled by 125 men in 32 minutes. Sheep are killed at the rate of 620 an hour, the slaughtering and dressing occupying about 34 minutes. Each man has one particular thing to do to each animal, generally very little, and as soon as it is done he passes on to another animal. The work in consequence goes on like clockwork.

We have hardly ever known as good grass at this season of the year as is now spread over our pastures and fields. In the opinion of many farmers this extraordinary abundance of blue grass will fully make up any deficiency in the corn crop. Whenever there is not a deep snow, calves and colts can thrive on blue grass better than on fodder or than almost any other feed. We know farmers who have turned out their colts and horses and never gave them any other feed than grass all winter and they came out in fine condition in the spring.—Lexington Gazette.

A Monster Jumper.

Of the numerous fishermen in Lancaster, none have been more energetic or enthusiastic than has Mr. John E. Stormes, the clever druggist. He has devoted much time to the river banks, but this fall it seemed that fate was against him, as nearly a fish ventured near his bait. Monday, he decided to change his base of operations, and went out to Col. Joe Arnold's immense pond. From early dawn he fished faithfully in boat and on bank.

Bold Thief.

The other night a negro went to the residence of Fred P. Frisbie and told Mrs. Frisbie her husband had sent for his black coat. As Fred had worn a black coat to town, Mrs. Frisbie became suspicious and said she would telephone to the store about it. When she went to the phone the negro disappeared. This is only one of numerous attempts at stealing within the past few days, and THE RECORD calls attention to this instance to show how smooth the thieves are, and warn our readers to be on the lookout. Load the old musket and shoot to kill.

Negro Masonry.

It may not be generally known that there exist in West Virginia an alleged Negro Grand Lodge of Masons, but such is the case, as we learned from the State press that it held a recent at Nuttallburg, and adjourned to meet at our sister town, Thomas, in Tucker county, some time next year. Thomas has a negro lodge, and a brother of Fairfax Lodge, at Davis, has a copy of their by-laws which, for originality, ought not to have the cake alone but should take the whole bakery. One section of their by-laws reads thus: "Any member found carrying a razor or pistol on his person away from his premises shall be fined 50 cents, and the weapon confiscated and sold and the proceeds donated to the charity fund." Another section reads: "Any brother who shall be found in arrears for dues to the amount of one dollar and thirty-five cents shall be declared unfinancial." Other sections are equally amusing, and reminds us more of a comic almanac, and yet the Grand Lodge of Washington wanted to extend recognition to negro Masons—Mystic Tie.

Death of Noble Man.

The death of Gen. E. H. Hobson, which occurred at Cleveland, O., last Saturday, cast a gloom over his legion of friends all over the state. He had been slightly ill for several days, but left his home in Greensburg to attend the encampment of the G. A. R., saying he felt much better. His death was very sudden and a great shock to veterans attending the encampment, nearly all of whom were personally acquainted with him. Gen. Hobson fought in the war with Mexico, and his bravery attracted much attention. In the civil war he commanded a Kentucky regiment, taking part in many important battles. He was brevetted a brigadier general for his bravery, and a commission as colonel in the regular army had been prepared for him when President Lincoln was assassinated. Gen. Hobson was a true Christian gentleman, and one of the most lovable men it has been our pleasure to know. He was a personal friend of the editor of this paper, and none mourn his loss more than we. He was a prominent politician, but not one of the latter-day type, he had his convictions and expressed them in a gentlemanly way, and conceded to others the same privilege. He had a supreme contempt for rascality, and ever held aloof from the tricky schemes sometimes practiced by those in politics. He was the true Kentucky gentleman, a Christian in every sense of the word, and his loss will be keenly felt in the community that was so fortunate as to claim him as a citizen.

Protecting Stock from Flies.

To keep flies off the following mixture is recommended as an application for the dairy herd. Fish, seal or tanner's oil, one gallon; crude carbolic acid, four ounces; and coal oil, one pint, all well mixed and rubbed on all parts except the udder. Two applications per week can be easily given at milking time, and will render the cows quite repulsive to all kinds of flies, bots, etc., but not at all objectionable to attendants or milkers. It is expedient to attend to this matter, which will prove both humane and profitable. Farmers' Voice.

Parents are hereby requested not to enter pupils in the first grade of our school later than next Monday. It means a reorganization of said grade when new pupils enter. An opportunity will be given in January to enter those that can not be entered by Monday. Respectfully, J. H. Patterson, Prin.

Handsome Improvements.

We are pleased to say to the public that our shop has just been papered and painted, and we have one of the prettiest shaving emporiums in the state. Years of experience, sharp razors and polite attention enable us to please the most fastidious. A call will convince you. Henry Duncan, the old barber.

Bold Thief.

The other night a negro went to the residence of Fred P. Frisbie and told Mrs. Frisbie her husband had sent for his black coat. As Fred had worn a black coat to town, Mrs. Frisbie became suspicious and said she would telephone to the store about it. When she went to the phone the negro disappeared. This is only one of numerous attempts at stealing within the past few days, and THE RECORD calls attention to this instance to show how smooth the thieves are, and warn our readers to be on the lookout. Load the old musket and shoot to kill.

Negro Masonry.

It may not be generally known that there exist in West Virginia an alleged Negro Grand Lodge of Masons, but such is the case, as we learned from the State press that it held a recent at Nuttallburg, and adjourned to meet at our sister town, Thomas, in Tucker county, some time next year. Thomas has a negro lodge, and a brother of Fairfax Lodge, at Davis, has a copy of their by-laws which, for originality, ought not to have the cake alone but should take the whole bakery. One section of their by-laws reads thus: "Any member found carrying a razor or pistol on his person away from his premises shall be fined 50 cents, and the weapon confiscated and sold and the proceeds donated to the charity fund." Another section reads: "Any brother who shall be found in arrears for dues to the amount of one dollar and thirty-five cents shall be declared unfinancial." Other sections are equally amusing, and reminds us more of a comic almanac, and yet the Grand Lodge of Washington wanted to extend recognition to negro Masons—Mystic Tie.

Death of Noble Man.

The death of Gen. E. H. Hobson, which occurred at Cleveland, O., last Saturday, cast a gloom over his legion of friends all over the state. He had been slightly ill for several days, but left his home in Greensburg to attend the encampment of the G. A. R., saying he felt much better. His death was very sudden and a great shock to veterans attending the encampment, nearly all of whom were personally acquainted with him. Gen. Hobson fought in the war with Mexico, and his bravery attracted much attention. In the civil war he commanded a Kentucky regiment, taking part in many important battles. He was brevetted a brigadier general for his bravery, and a commission as colonel in the regular army had been prepared for him when President Lincoln was assassinated. Gen. Hobson was a true Christian gentleman, and one of the most lovable men it has been our pleasure to know. He was a personal friend of the editor of this paper, and none mourn his loss more than we. He was a prominent politician, but not one of the latter-day type, he had his convictions and expressed them in a gentlemanly way, and conceded to others the same privilege. He had a supreme contempt for rascality, and ever held aloof from the tricky schemes sometimes practiced by those in politics. He was the true Kentucky gentleman, a Christian in every sense of the word, and his loss will be keenly felt in the community that was so fortunate as to claim him as a citizen.

Protecting Stock from Flies.

To keep flies off the following mixture is recommended as an application for the dairy herd. Fish, seal or tanner's oil, one gallon; crude carbolic acid, four ounces; and coal oil, one pint, all well mixed and rubbed on all parts except the udder. Two applications per week can be easily given at milking time, and will render the cows quite repulsive to all kinds of flies, bots, etc., but not at all objectionable to attendants or milkers. It is expedient to attend to this matter, which will prove both humane and profitable. Farmers' Voice.
